### B. Agricultural Treated Water Rate.

Agricultural service shall be defined as water delivered through a single meter for use upon tracts or parcels of land within the boundaries of the District, utilized for agricultural purposes as defined by its wholesaler, San Diego County Water Authority's (SDCWA) Permanent Special Agricultural Water Rate (PSAWR) program. Water received by the user for agricultural purposes shall be charged as follows:

#### Base Rate effective January 1, 2025:

\$6.90 per Unit

10% Demand Reduction Rate effective January 1, 2025: \$7.20 per Unit

30% Demand Reduction Rate effective January 1, 2025: \$8.02 per Unit

SDCWA offers a Permanent Special Agricultural Water Rate (PSAWR) program. A contract must be signed between the District and the property owner providing that the owner will participate in the PSAWR and voluntarily agree to a mandatory water supply reduction in the event of a water supply shortage. When such a contract is approved by the District, a credit of \$1.75 per Unit, of agricultural water used shall be applied to each qualified customer's bill. Customers participating in this program are subject to unannounced inspections by the District to ensure they continue to meet the requirements of the program. Any accounts determined to be ineligible for the PSAWR program will be reclassified to a residential, commercial, or irrigation rate and charged accordingly. SDCWA reserves the right to cancel the PSAWR program at any time.

### A. Purchased Water Wholesale Pass-Through

All rate increases for fees and charges for wholesale water and water-related services imposed by the San Diego County Water Authority (“SDCWA”) on the District, by itself, or on behalf of the Metropolitan Water District of Southern California (“MWD”), and any other wholesale water charge increases imposed by Recycled Water Wholesalers on the District shall be passed through to customers (the “Purchased Water Wholesale Pass-Through”). The Purchased Water Wholesale Pass-Through shall be calculated by dividing the total billings from SDCWA for usage charges by the quantity of budgeted water sales and water meters of the District. The District will determine whether it is appropriate to increase the Commodity Charge component and/or the Olivenhain Municipal Water District System Access Charge (“OMWD SAC”) component of the District’s water service fees as a result of such Purchased Water Wholesale Pass-Through. The District will impose an increase on the Commodity Charge and the OMWD SAC components of its water service charges as a result of Purchased Water Wholesale Pass-Through. The District may impose annual future rate increases for Purchased Water Wholesale Pass-Through commencing January 1, 2025, and any time through and including December 31, 2029.

### B. Inflationary Pass-Through

The rates for the Commodity Charge component and the OMWD SAC component of the District’s water service fees may be adjusted annually based June end to June end percent change in the San Diego-Carlsbad Consumer Price Index for All Urban Consumers as determined by the U.S Bureau of Labor Statistic for inflation (the “Inflationary Pass-Through”.) Commencing January 1, 2025, the District may impose an increase on the Commodity Charge and the OMWD System Access Charge components of its water service fees as a result of the Inflationary Pass-Through. In no event shall such rates for the Commodity Charge component and the OMWD System Access Charge component increase from inflationary cost increases based on the Inflationary Pass-Through be more than the cost of operating and maintaining the water System, including capital facilities. Such rate increases may be imposed annually for a five-year period 2025-2029, with the first such increase on or after January 1, 2025, and any time thereafter through and including December 31, 2029.

### C. SDCWA Infrastructure Access Charge Pass-Through

Any increases to SDCWA fixed monthly fees collected on water meters (the “SDCWA Infrastructure Access Charge”) shall be directly passed through by the District to its customers. Any future increases in SDCWA Infrastructure Access Charge will only impact the SDCWA Infrastructure Access Charge.
